

Drawing Contest: “My Giro between Lake and Mountains”

In celebration of the 19th stage of the 2026 Giro d'Italia: Feltre – Alleghe (Piani di Pezzè)

On May 29, 2026, the whole world will be watching our peaks. Cycling champions will tackle the dizzying slopes of the Giau Pass and the Falzarego Pass to finally arrive here, in the heart of the Civetta region, at **Piani di Pezzè**.

We want children's colors to welcome the pink peloton!

Imagine the riders speeding along the shores of **Lake Alleghe**, with the blue reflections of the water, and then beginning the grueling climb toward Piani di Pezzè, surrounded by the woods and rock faces of Mount Civetta.

- **What can you draw?** Bicycles racing, the cheering crowd, our giant mountains watching the race, or maybe yourself waiting for the favourite champions with a little pink flag!

Categories and Participation

The contest is open to all young artists, divided into three age groups:

1. **Mini Climbers:** Preschool.
2. **Young Sprinters:** Elementary School.
3. **Champions of Tomorrow:** Middle School.

How to Participate

- **Technique:** Anything goes! Use pencils, markers, watercolors, or collage. The important thing is to use lots of **pink**.
- **Submission:** Drawings must be submitted to the **Alleghe Tourist Office by May 31, 2026**.
- **Exhibition:** All drawings will be displayed in a “Pink Gallery” along the streets of the town and at Piani di Pezzè in the days following the event and throughout the summer

Prizes to Be Won

The winners in each category will receive special prizes related to cycling and the mountains, including official merchandise from the 2026 Giro d'Italia and summer lift passes for the Alleghe Cable Cars.

“Put your heart into pedaling... and your imagination onto a sheet of paper!”

Information for Parents

The goal of this initiative is to promote the values of sports and a love for the Belluno region through the artistic expression of our youngest participants. The 19th stage will be a historic moment for Alleghe: a major Dolomite stage with 5,000 meters of elevation gain that will crown the Giro's champions right at the foot of Mount Civetta.

Get your colors ready, the celebration is about to begin!
